## Gainful Employment

The federal “Gainful Employment” regulations are applicable to all non-degree (certificate) programs. The regulations include data collection, government reporting, and consumer disclosures.

**Data Submission:** Each year by October 1, the school submits data through NSLDS on the completers from each program during the prior academic year.

**Data Collection:** The school collects and compiles gainful employment data for all programs.

The collected data includes:

- in-state and out-of-state tuition and fees data for each program,
- other Cost of Attendance figures for each program,
- the website URL for each program,
- the completion rate data for each program,
- information about the amounts of student loans (federal and private) borrowed by program completers, and
- data regarding the median earnings of program completers (provided by the U.S. Department of Education from the data submitted previously).

**Publication to the Website:** Gainful Employment data is posted to the individual program website for each GE program.
